Gentlemen: I am a subscriber to XM Satellite Radio, and I enjoy the quality programming, and the available variety of channel formats, that are not available elsewhere. As I pay for these services, I feel that only I, NOT the National Association of Broadcasters, should dictate what content or programming I am permitted to hear. As an adult, I make the choice to change the channel if the broadcast is not to my liking. I respectfully am urging the FCC to reject your petition 04-160 and will continue to support XM's ability to provide the kind of programming that I demand and deserve.
Respectfully,

Derrick Vianna
